A.M.S. EXOTIC TEAMS WITH GEORGE FOODS

Los Angeles, California, October 16, 2008 –

A.M.S. Exotic; a leader in the Baby Vegetable Category, producing Earth Exotic's Premium Baby Vegetables, Earth Exotic's Steam Cooked Vegetables and Earth Exotic's Premium Food Service products, is proud to announce an agreement with George Foods, Pembroke, North Carolina to produce the Earth Exotic's Premium Vegetables.

A.M.S. Exotic was founded on the principal of providing the finest produce to consumers throughout the world. We are involved in growing, packaging, processing and marketing a wide selection of Premium Vegetables and Fruits. Our main facility, located in the heart of the Produce District in Los Angeles, California which is certified by S.C.S. (Scientific Certification Services) utilizes Good Manufacturing Practices (GMP) and full Hazard Analysis Critical Control Point (HACCP) Food Safety programs. A.M.S. Exotic is part of the Well Pict European/AMS network that includes offices in the United Kingdom, Spain, Portugal, France and South Africa. The alliance combines its strengths in order to generate useful synergies that promote global sales and supplies.

United States.

Our Earth Exotic Premium Vegetables can be found at the finest supermarket chains throughout America, Canada, Hong Kong, Russia and Singapore. Our products also enhance the menus prepared by famous chefs in the finest restaurants across the U.S.A. The Earth Exotic's Premium Vegetables were launched in October 2004 to Retail Supermarket chains throughout the Western United States. Today our brand can be found all across the US as well as our Corporate Branded products which are supplied to many Retail Supermarket Chains throughout the

Wayne E. Bailey Produce, Inc. (WEB) has been in existence since 1935. George Wooten was named President in 1991. Wooten's gift for marketing, development of customized packs, and thirst for innovation has driven the company to be a leader in the sweet potato industry.

The results have been beneficial not only to this company and to the entire sweet potato industry, but to the local economy as well. Sales of approximately 50,000 bushels (2.5 million lbs.) per year in the

1970's have increased to over 1.5 million cartons (60 million lbs.) per year. Employment has gone from five full time employees to over 30 full-time and approximately 400 total employees. "We have since added several local storage facilities as well as storage and packing facilities in Mississippi, Louisiana and Texas. On August 30, 2007, we moved into a brand new facility that has 229,000 square feet featuring the most modern equipment in the industry," he continued.

Wayne E. Bailey Produce Company employees see this company as the innovator in the sweet potato industry. This innovation has sparked our growth and the ideas and opportunities continue to develop. We provide an extensive market for the farmer's crops through creative marketing to the retail, wholesale, and food service industries throughout this country, Canada, and the United Kingdom. Along with these industries, we also work with hunger relief organizations as part of our ministry effort. For the last 20 years we have been able to provide sweet potatoes to these different segments of the industry year-round.

Additionally, we have been innovative with our marketing strategies. Now, with the addition of George Foods to our family in 2006, we have a great opportunity to bring value-added processing capability of sweet potatoes as well as other agricultural products. This will provide opportunity for greater profit margins for the growers and packers. Wayne E. Bailey Produce and George Foods are poised to continue serving the world with fresh sweet potatoes as well as other, innovative products.

"We are very proud to announce this agreement between A.M.S. Exotic and George Foods.", states Mr. Lehmann. "This agreement will allow A.M.S. Exotic to provide our high quality Earth Exotic's Premium Vegetables to Retail Supermarkets chains on the East Coast with greater shelf life, shorter lead times, fresh product and lower transportation costs as a whole." States Mr. Lehmann. "We also believe that the ability to expand the Earth Exotic's offerings to all of our customers will be realized through this agreement." stated Mr. Lehmann. "Our customers have asked us to expand our production to the East Coast, in an effort to realize the benefits of product being produced much closer to their stores as well as having product produced here in the U.S." according to Mr. Lehmann

A.M.S. Exotic is a "Total Solutions Provider", offering high quality, convenient, safe specialty vegetables in convenient sizes for Supermarket Chains throughout the U.S. Custom Programs, Private Label, and Custom Mixes are available.
